

Police Task Force Recommendations

In December 2014, the President's Task Force on 21st Century Policing, the Ohio Governor's Task Force on Community-Police Relations, and the Ohio Attorney General's Advisory Group on Law Enforcement Training were convened to make recommendations to improve "Community-Police Relations" and to also address changes on how law enforcement officers are trained.

In August 2015, Police Chief Dennis Evers submitted a written report to City Council outlining each of the proposed recommendations impacting law enforcement and their potential effect on the Beavercreek Police Department.

In his analysis to council at an August work session, the Chief concluded:

"The Beavercreek Police Department meets or exceeds the proposed recommendations and have been doing these things now being recommended to improve community-police relations for years. This is a direct result of our existing "partnership with our community" which is driven by our "Mission Statement" and our commitment to excellence through our participation in CALEA,

(Commission on Accredited Law Enforcement Agencies) since 1999."

During the work session presentation, Chief Evers also updated Council on two recommendations from the Departmental Shooting Review Board – exploring the use of body cameras and the formation of a Citizens Advisory Committee. These were recommended as additional methods to further enhance our transparency and community partnership. The Chief related that a committee had been formed to pilot a program to test and evaluate cameras and to address policy, privacy, storage, redaction and cost issues. Cameras selected to be tested should be on several officers around the end of this year.

The evaluation of body cameras will take place over the next eighteen to twenty-four months. The Chief also advised he is developing a Citizens Advisory Committee draft policy to be presented to Council for their input at a future work session.

To view the entire Task Force Recommendations report, go to www.beavercreekohio.gov and select the news tab.

City Street Division Prepares for Winter

Winter weather is just around the corner. The City's Streets Division has been busy getting the trucks and other equipment ready, and ordering and receiving salt for the upcoming season.

Salt is available, but the cost is still higher than in the past. Unlike last year, we are expecting to have enough of a supply of salt to maintain all City roads. Salt usage will be monitored closely to ensure the balance between fiscal stewardship and meeting the residents' expectations.

We ask your patience and understanding when driving around our trucks. We have installed multiple caution lights on all of our trucks to provide warning to other drivers. Snow plow trucks make sudden stops, turns and other actions that may not be expected for a normal vehicle.

This is especially true in intersections where the trucks often need to move from an inside lane to the curb to clear the snow from the plow. This maneuver is needed because many times the plow is pushing too much snow to go through the intersection without leaving a dangerous window of snow for crossing traffic.

City of Beavercreek Qualifies for Auditor of State Award with Distinction

On Thursday, September 10th, Dave Yost, Auditor of State presented the City of Beavercreek the "Ohio Auditor of State Award with Distinction" for the City's Comprehensive Annual Financial Report (CAFR) for fiscal year 2014. The Auditor of State expressed that this award is presented for exemplary financial reporting in accordance with General Accepted Accounting Principles (GAAP). "Taxpayers expect accurate financial records from their local governments," Auditor Yost said. "The City of Beavercreek's dedication to accountability is evident."

Auditor Yost indicated that the State Auditor is responsible for over 5,800 entities and less than 10% received the Auditor or State Award, and of those, only 5% receive the award with Distinction. He pointed out that receiving this Award with Distinction in three of the last four years is a prestigious achievement.

The Ohio Auditor of State Award with Distinction is presented to local governments and school districts upon the completion of a financial audit. Receiving the Ohio Auditor of State Award with Distinction demonstrates the City's diligence in continuing to be outstanding stewards of residents' assets and its success in reporting these results according to the highest government accounting standards.

Mayor Brian Jarvis expressed, "I'm especially impressed by the leadership and the diligence shown by management and staff for following the robust financial processes that the City has implemented. Sound financial decisions can't be made by City Council unless accurate and timely financial data is available. Complete and thorough financial transparency is important to Beavercreek City Council and to our constituents and is integral to everything we do."

City Manager Michael Cornell stated, "These awards, from outside agencies is a testament to the cooperation and coordination of Council, management, and staff working together to provide a financial system dedicated to accurately recording and communicating the City's financial standing to residents and other interested parties."

The 2014 CAFR, 2015 Annual Detailed Budget, and quarterly updates of the City's financial condition can be found on the City Web site at Beavercreekohio.gov.

City Street Division Prepares for Winter [...continued from page 1]

While our drivers try to be aware of vehicles around them, there are many blind spots where a pick-up truck may be hidden from the driver's view. When a plow truck is in the left lane, you should be extra cautious passing on the right due to not only the normal blind spots, but also the possibility of a large amount of snow being thrown to the right of the truck from the plow. The velocity of this snow can cause damage to property or your vehicle.

Please remember: *Snow Down = Slow Down*. If you need to travel during a winter event be sure to give yourself plenty of extra time to get to your destination and give extra room between you and other vehicles.

SHAKE YOUR MAILBOX

Taking a moment to "Shake your mailbox" can save a lot of aggravation when the snow is on the ground and your mail has been scattered. Many of the mailboxes that are damaged during the season are a result of snow leaving the plow and hitting unsound mailboxes which then fall off the post, scattering mail in the process.

To try to aid in lessening this experience, several of our trucks are being equipped with diverters to try to better control the snow being thrown. Staff is experimenting with several variations, and once we find the method that works the best, we will then install these dividers on the remaining trucks. If your mailbox is damaged, please contact the City of Beavercreek Public Service Division at 937-427-5540 and we can assist in providing a temporary mailbox so that you can continue to receive mail.

Officers Graduate from CIT Course

Officers James Burton, Nicholas Coltrane, Tyler Fruhwirth, Kenneth Harris, Cynthia Peffly and Francesco Trimboli were among the 40 area police officers who graduated on August 14 from the Crisis Intervention Team (CIT) training course held at the Greene County Educational Service Center. Lieutenant (retired) Mike Woody, President of CIT International, was the graduation speaker. CIT training is conducted under the supervision of the CEO of the Mental Health and Recovery Board (MHRB) of Clark, Greene and Madison Counties.

This specialized training prepares officers to handle complex issues specifically concerning mental health-related incidents. In addition to their regular duties, these volunteer members of the Crisis Intervention Team are the first responders to mental illness disturbance calls. CIT encourages officers to direct individuals experiencing a mental health crisis into the behavioral health system for access to long term treatment instead of into the criminal justice system.

During 40 hours of training, the officers learned verbal de-escalating techniques, as well as recognition and identification of various types of mental illnesses. The officers also rode along with Mental Health case managers to observe firsthand techniques learned in the classroom. Officers Burton, Coltrane, Fruhwirth, Harris, Peffly and Trimboli join the ranks of 18 other Beavercreek police officers who have received this training since the program's inception in 2006.

Pictured left to right: Capt. Jeff Fiorita, Officers Kenneth Harris, Francesco Trimboli, Cynthia Peffly, Nicholas Coltrane, Tyler Fruhwirth, and James Burton

Beavercreek Police Tip Line

Anyone with information about any criminal or suspicious activity, the locations of wanted persons, or any other information about an involvement in a crime that may lead to an arrest of a suspect, can call the Tip Line with that information.

Callers may remain anonymous. The phone number is [937-320-7393](tel:937-320-7393) and is available 24 hours-a-day.

School Resource Officer Assigned to Middle Schools

Starting with this 2015-2016 school year, Officer Matt Hickey has been assigned to the Beavercreek School District Middle Schools as the School Resource Officer.

His primary responsibility will be for Ankeney and Coy Middle Schools but he will also be available across the district, which has approximately 7,652 students utilizing eleven school facilities. In addition, Officer Hickey will provide support to Officer Mark Brown, the SRO assigned to the high school campus since 2013. The SRO program partnership with Beavercreek Schools has been in existence since 2002.

Officer Hickey has been with the Beavercreek Police Department since 2002 and has been assigned to the patrol division since that time. SRO duties include being a police liaison to the school district, giving classroom presentations related to law enforcement topics, and working with school counseling staff to assist in the prevention of potential criminal activity.

Chief Dennis Evers commented, "We recognized a need at our middle school level and we are pleased to be able to fill that void starting this school year. We are continually striving to broaden our partnerships with the community and adding a second SRO further enhances that partnership. We look forward to the additional opportunity to interact positively with our youth in the community and in our schools."

D.A.R.E. 2015 Summer Camp

D.A.R.E. (Drug Abuse Resistance Education) is a valuable program provided by the Beavercreek Police Department in cooperation with the Beavercreek City School District to give fifth and sixth grade students the tools to help them make safe and responsible choices in their lives. As the DARE program instructor since 2012, Officer Kevin Kovacs presents a series of classroom lessons teaching school children how to resist peer pressure and live productive drug and violence-free lives through good decision-making skills. Officer Kovacs currently presents this curriculum to six City of Beavercreek elementary schools and one private school – St. Luke.

As part of the program, Officer Kovacs and Xenia Police DARE Officer Matheson hosted a three-day, two-night DARE Camp at Hugh Taylor Birch Boy Scout Camp just outside of Yellow Springs as a reward for Beavercreek and Xenia DARE graduates who stood out by working extra hard throughout the 2014 – 2015 school year.

Officer Kovacs (top row, far left) with D.A.R.E. campers

Twenty-nine students from Beavercreek participated in the camp which was held August 5 through August 7. Eight Beavercreek High School students also participated this year as Peer Counselors. Officers and peer counselors make an effort to reinforce with the students these DARE principles: thinking of the consequences of our choices; stress and responding to pressure; reporting bullying; and help networks. They also discuss leadership skills on an individual basis to guide students in a positive direction so they will set a good example for their peers.

DARE Camp is funded solely by donations from area individuals and businesses - no taxpayer money is used. This year's sponsors were Beavercreek FOP Lodge 160, Greene County FOP Lodge 37, Rotary Club of Beavercreek, Edict Systems, Greater Dayton Construction, Greene Medical Foundation (part of the Kettering Health Network), and the Beavercreek Walmart. Anyone wishing to contribute can do so by contacting Officer Kovacs at (937) 426-1225.

Officer Justin Tolley Receives 2015 Blue Coat Award

Beavercreek Police Department Officer Justin Tolley has been named the recipient of the 2015 Knights of Columbus Council 7981 Blue Coat Award. Officer Tolley graduated from Indiana State University with a Bachelor of Science in Criminal Justice. Hired in 2010, Officer Tolley has served the agency and community as a dedicated patrol officer, volunteering for opportunities on numerous occasions.

He spends a considerable amount of free time meeting with local businesses and organizations to ensure the needs of the community are met without impacting the Department's response to calls for service. He also serves as the assistant commander of the Department's Citizens Police Academy.

Officer Tolley has managed to successfully balance his time between career and family while volunteering in the community and serving his country as a military reservist with the United States Air Force Reserve. He is dedicated to his family, church, police department, fellow officers, and the community he serves.

He and his family are members of the Forest Ridge Baptist Church, and Officer Tolley commits time outside of attending services to help with maintenance and lawn care. His pastor speaks highly of him, describing him as a dedicated husband and father, committed to his children and their activities. Officer Tolley speaks lovingly of his family and the importance of their faith, and his spiritual strength is evident, particularly as he faces the often negative aspects of law enforcement on a daily basis.

Officer Tolley is very deserving of the Blue Coat Award, not only because of his strong commitment to his family, church, work and local community, but also for his dedication to the law enforcement profession. He was honored by the Knights of Columbus at its annual banquet at Franco's Ristorante Italiano in Dayton on June 20.

Officer Justin Tolley

Police Department Hires New Officers

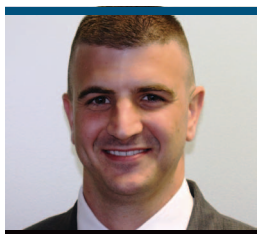

The Beavercreek Police Department conducted a ceremony on June 29, 2015 to swear in three new police officers in the Beavercreek City Council Chambers before family, friends and colleagues. Beavercreek Police Chief Dennis Evers introduced *Francesco Trimboli*, *Nicholas Coltrane* and *Kenneth Harris* as the newest members of the Beavercreek Police Department before they were officially sworn in by Beavercreek Mayor Brian Jarvis.

Officer Trimboli holds a Bachelor of Arts Degree in Criminal Justice from Wright State University. He graduated from the Sinclair Criminal Justice Training Academy with his Basic Peace Officer Certification in May 2012. Prior to joining the Beavercreek Police Department, he was employed as a police officer with the Grandview Police Department.

Officer Coltrane is a 2006 graduate of the Butler Tech Peace Officer Training Academy. Prior to joining the Beavercreek Police Department, he was employed as a police officer with the Sugarcreek Township Police Department, serving most recently as a detective.

Officer Harris graduated from Wright State University in 2014 with a Bachelor of Arts degree in Criminal Justice and was honored for his academic achievement with induction into the Criminal Justice Honor Society – Alpha Phi Sigma. He graduated from the Clark State Community College Peace Officer Training Academy in December 2014 and earned his Basic Peace Officer Certification in January 2015.

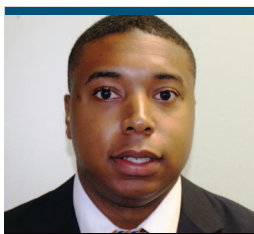

Officers Trimboli, Coltrane, and Harris have been assigned to field training officers to learn Beavercreek policies and procedures. Upon successful completion of the field training shadow phase, which usually encompasses twelve weeks of training, they will be assigned to solo patrol status under the supervision of platoon sergeants. The Beavercreek Police Department looks forward to utilizing the strengths and talents each officer brings to the community.

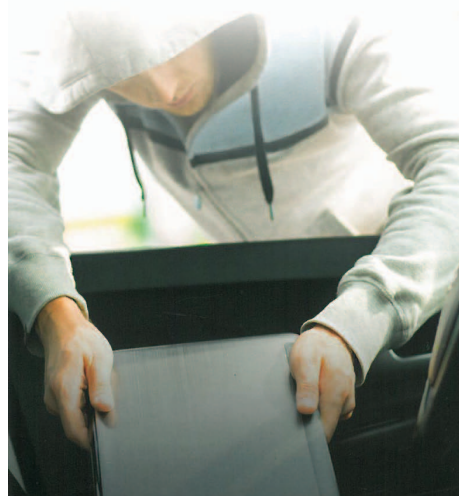

Officer Francesco Trimboli

Officer Nicholas Coltrane

Officer Kenneth Harris

100% of all personal property theft from vehicles is preventable.

25% of all thefts in the U.S. are property from vehicles

TIPS FOR PREVENTING PROPERTY THEFTS FROM VEHICLES:

- Always lock your vehicle
- Park in well-lit areas
- If you must...leave it in the trunk
- Completely close all windows and sunroofs
- Avoid parking between large vehicles and large landscaping
- Do not approach your vehicle when a stranger is nearby; call 911 or security for an escort

Do Not Leave Valuable Property Exposed In Your Vehicle!

Beavercreek Township Fire Department Wins the Battle of Badges for the Second Time

On August 17, the Community Blood Center, the Beavercreek Township Fire Department and the Beavercreek Police Department sponsored a Battle of the Badges community blood drive. Battle of the Badges was a friendly competition among our Quiet Heroes – Beavercreek law enforcement, fire and EMS agencies.

Battle of the Badges was a way to help supplement the blood supply during the summer months. Blood donors were asked to give in honor of their favorite department. Each person who registered to donate blood was asked to cast their vote for law enforcement or the fire/EMS.

The combination of loyal Peace Lutheran donors and Battle of the Badges supporters resulted in 101 people who registered to donate, with 52 voting for the firefighters and 33 for police. The results included 11 first-time donors and 87 donations for 99 percent of the collection goal.

This was back-to-back wins for the Fire Department in this friendly competition, with a similar margin of victory to last year (59-41). The competition was thought of originally last year by Pat Cochran from the Beavercreek Township Fire Department Auxiliary, who joined forces with the coordinator of the Community Blood Center blood

drive sponsored by Peace Lutheran Church.

Helping others was the common goal at the blood drive, but choosing a side in the Battle of the Badges did mean some indecision for some. In conjunction with the blood drive, Bob Evan's in Beavercreek supplied cookies and held a fundraiser for the Fire Department Auxiliary in August, in which 15 percent of the sales for the week were donated to the Auxiliary.

Bob Evan's also had a fire engine and police car come out for Family Night on Tuesday, August 18. Families could check out the fire truck and police car on display before going in for a nice dinner.

Fire Department Hires Full Time Firefighters and Promotes a Lieutenant

The Beavercreek Township Fire Department Fire **Chief David VandenBos** and the Beavercreek Township Board of Trustees hired three as career full-time firefighters and promoted a firefighter to Lieutenant to fill the vacancy of retired Lieutenant Rob Young who recently retired in August 2015.

They will be great assets to the Department and we wish them the best of luck in their new career and positions. Below is a little about each firefighter.

Eric McComas is from Dayton, Ohio where he graduated from Carroll High School. He earned his firefighter and Paramedic certifications from Sinclair Community College. Eric has been serving the community of Beavercreek as a firefighter since August of 2013. He has also been serving in the Ohio Army National Guard for the last seven years and was promoted to Staff Sergeant in June of 2014.

Eric is certified as a Level Two Firefighter, Rope Rescue and Ice Rescue Technician. Eric is committed to protecting and serving the citizens of Beavercreek as a firefighter/paramedic, while one day hoping to use his leadership abilities and experience to better serve the Department and community by becoming a lieutenant. Eric is a resident of Beavercreek and proud to be accepting the position of a full-time firefighter, representing the Beavercreek Township Fire Department.

Joe Trick was born and raised in Beavercreek and graduated from Carroll High School. Joe received his levels 1 and 2 firefighter and EMT-Basic certifications from Sinclair Community College. He became a part-time member of the Beavercreek Township Fire Department in August 2013.

Since becoming a member of the Department, Joe has become a Certified Rope and Ice Rescue Technician and has become a Certified Paramedic. Joe plans on someday earning his Associates Degree in Fire Science. He looks forward to having his full-time career here in the community that he grew up in.

Todd Lohse grew up along the Mississippi River in a town called Clinton, Iowa. He moved to Ohio with his mother and graduated from Kettering Fairmont High School in 2005. Todd began to volunteer for the Kettering Fire Department while attending Sinclair Community College where he received his fire and EMS certifications.

Todd was employed part-time with the Department from September 2010 to June 2013 and then hired with the Springfield Fire Department full-time. During Todd's time with the Beavercreek Fire Department, he received an EMS Unit Commendation ribbon and a Firefighter Commendation medal. Todd looks forward to his service here and plans on continuing to learn and train every day.

Lee Poulos was born and raised in Xenia, Ohio. Lee attended Miami University in Ohio where he earned a Bachelor of Science in Business specializing in Human Resources Management. He began working as a manager at a micro brewery and for some local physicians as a medical tech.

After talking to a family acquaintance and a taking part in ride alongs, Lee realized this is what he wanted to do for a career. He received his firefighter and paramedic certifications from Sinclair Community College. Lee began part-time with the Department in August of 2003 and hired full-time in June 2006. While with the Department, he earned his EMS Instructor, Fire Officer 1 and 2, Rope Rescue Technician, Vehicle Extraction Technician, Confined Space Technician, Water Rescue Operations, Ice Rescue Technician, Hazmat Technician, and Elevator Rescue certifications.

Lee's awards consist of two Fire Unit Commendations, Two EMS Unit Commendations and a Firefighter Commendation ribbon. He has also been the C Platoon EMS shift trainer and a project manager for new medic purchases.

Beavercreek Township Fire Department Lieutenant Retires After 34½ Years of Service

Lieutenant Robert B. Young graduated from Kettering Fairmont West High School in 1977. He entered the fire service as a volunteer firefighter with the Kettering Fire Department. In 1980, he received his Emergency Victim Care certification as an Emergency Medical Technician-Ambulance (now called EMT-B). In March 1981, he was hired full time by the Beavercreek Township Fire Department in which he has served for 34 ½ years. That same year, Rob earned his Level 2 Firefighter certification from the Ohio Fire Academy.

In 1982, Rob graduated from the Good Samaritan Hospital's Paramedic Program and earned his Paramedic certification. He was then appointed to the Dayton Regional Hazardous Materials Response Team as the Kettering Fire Department's liaison. A year later, Rob was promoted to Lieutenant for Beavercreek Township Fire Department and graduated from Sinclair Community College with an Associates Degree in Fire Science Technology.

In 1984, Beavercreek Township Fire Department appointed Rob to the Dayton Regional Hazardous Materials Response Team; little did he know that hazardous materials would become his forte during his career.

In 1988, Rob attended the Ohio Fire Academy earning his Fire Instructor certification, was appointed to the training division for Beavercreek Township Fire Department, and became the coordinator of the recruit training program. The following year Rob attended the Ohio Fire Academy to be a certified Hazardous Materials Technician. His career to being a Haz-Mat guru begins to blossom as he initiated the Beavercreek Township Fire Department's Hazardous Materials Training and Response Program and became the coordinator.

Besides hazardous material, Rob was involved with coordinating live burn trainings for the Fire Department for a number of years and managed the training and Haz-Mat program budgets.

In 1990, Rob was appointed as an adjunct hazardous materials instructor for the Ohio Fire Academy. He also completed the Educational Methodology Program at the National Fire Academy to become Instructor 2 certified and later completed the Fire Officers Leadership Program at the National Fire Academy.

By 1994, Rob had found his niche in Haz-Mat. His knowledge was recognized by the National Fire Academy in which they appointed him as an adjunct instructor for the Haz-Mat Program, Emergency Response to Terrorism Program, Safety Program, and Command and Control Programs. That same year, Rob completed the Cleveland State University Instructor Program and the Transportation Test Center in Colorado to become a Hazardous Materials Specialist in Highway Emergencies and Railroad Emergencies.

Once he completed the Cleveland State University Instructor Program, Rob was appointed as an Instructor for the Cleveland State University's Center for Emergency Preparedness.

In 1997, Rob decided to retire from the Kettering Fire Department. He continued to advance his career though with completing the Management Sciences Program at the National Fire Academy and becoming the Hazardous Materials Specialist with Ohio Task Force One Urban Search and Rescue.

Rob's knowledge of hazardous materials was exceptional in which he began instructing for multiple federal agencies around the country such as United States Air Force, National Emergency Training Center, Department of Homeland Security, Civil Support Teams from the National Guard, and the FBI.

In 2000, Rob expanded his knowledge by completing training with the Office of Domestic Preparedness and received a Weapons of Mass Destruction Technician certification, and in 2004 completed the Office of Domestic Preparedness: Chemical Weapons, Biological Weapons and Bomb Schools. In 2011, he completed the Department of Homeland Securities Advanced Incident Command Systems program.

Rob's knowledge didn't go unrecognized. He received the Firefighter of the Year in 2007 for his expertise and dedication to the Haz-Mat program with the Beavercreek Township Fire Department. He also received the Beavercreek Township Fire Department Meritorious Service Award for initiating and sustaining the Hazardous Materials Program in 2010.

Lieutenant Robert B. Young

[continued on page 8...]

Fire Department Lieutenant [...continued from page 7]

Rob has received numerous EMS Unit Commendation Awards for exceptional service in patient care as well as a Fire Unit Commendation Award for the large fire at Mallard Landing Apartments.

Rob has also received appreciation awards such as the Deployment Service Award for deploying to South Dade County Florida from the Beaver Creek Fire Department to assist with the Hurricane Andrew Disaster in 1994. He also was honored at the National Fire Academy where his name is on the walkway to the National Firefighters Memorial for his commitment and dedication to hazardous materials education.

His plans for retirement consist of continuing to teach for Cleveland State University and for private chemical companies. We wish him the best of luck for a healthy and enjoyable retirement and thank him for his dedicated service to the Fire Department.

Hear the Beep Where You Sleep

Every Bedroom Needs a Working Smoke Alarm!

If you were asked where your smoke alarms are in your home, could you tell someone? If you're like many people, you may not pay much attention to where smoke alarms have been installed. However, location matters when it comes to smoke alarms. Smoke alarms should be installed inside each bedroom, outside each sleeping area and on every level of the home, including the basement.

Working smoke alarms are a critical fire-safety tool that can mean the difference between life and death in a home fire. According to the nonprofit National Fire Protection Association (NFPA), smoke alarms can cut the chance of dying in a home fire in half. Meanwhile, NFPA data shows that home fires killed 2,755 people in 2013, an average of eight people every day that year. Many of these deaths could have been prevented with the proper smoke alarm protection.

The Beavercreek Township Fire Department has seen the devastating effects of fire first-hand; the burn injuries and the loss of homes and possessions are distressing. What's even worse is witnessing a family's anguish after a loved one has been killed in a fire. It's heartbreaking.

As the official sponsor of Fire Prevention Week, October 4-10, 2015, NFPA is promoting "Hear the Beep Where You Sleep. Every Bedroom Needs a Working Smoke Alarm!" to better educate the public about the true value of working smoke alarms in the bedroom. In support of these efforts, Beavercreek Township Fire Department will be hosting an open house in October.

Our sincere hope is that all Beavercreek residents participate in our Fire Prevention Week activities, and make sure there are working smoke alarms installed throughout their homes. These simple steps can help make a life-saving difference, and prevent the potentially life-threatening impact of fire.

Here are additional smoke alarm tips to follow:

- Install smoke alarms in every bedroom, outside each separate sleeping area and on every level of the home, including the basement
- Interconnect all smoke alarms throughout the home. When one sounds, they all sound
- Test alarms each month by pushing the test button
- Replace all smoke alarms, including alarms that use 10-year batteries and hard-wired alarms, when they are 10 year old or sooner if they do not respond properly
- Make sure everyone in the home knows the sound and understands what to do when they hear the smoke alarm
- If the smoke alarm sounds, get outside and stay outside
- Go to your outside meeting place.
Call the fire department from outside the home

To learn more about the "Working Smoke Alarms Save Lives: Test Yours Every Month!" campaign, visit the NFPA's Web site at firepreventionweek.org and www.sparky.org/fpw.

Pedestrian Bridge Dedication

On August 28, the City of Beavercreek hosted a ribbon cutting of the I-675 pedestrian bridge. Residents have been anxiously waiting for this project to be completed for many years. This bridge offers a safe and convenient passage for non-motorized travel between Beavercreek, Fairborn and Greater Dayton.

The bridge is 467 feet long and 12 feet wide; there are 145 lights along the bridge for safety and security. The ramp and bridge comply with all Americans with Disabilities Act standards. The City of Beavercreek will be responsible for the maintenance of the path and bridge.

This was a joint project with many partners: City of Beavercreek, City of Fairborn, Ohio Department of Transportation, Wright State University, Clark State Community College, Miami Valley Regional Planning Commission and Bikeway Advisory Committee. City Council passed a resolution to name this path Wright State Way. The lettering will be installed by Wright State University later this fall.

TOWNSHIP TIMES news and information is provided by Beaver Creek Township Trustees: Carol Graff, Editor (426-8558); Tom Kretz, Chair (654-9449); Dan Paxson, Vice Chair (684-6895); and Township Fiscal Officer Christy Ahrens (426-3039); Township Administrator Alex Zaharieff, (306-5162); Fire Headquarters (426-1213) | www.BevercreekTownship.org

ELECTION, NOVEMBER 3, 2015

Residents of the City of Beaver Creek, the unincorporated portion of Beaver Creek Township and the City of Fairborn plats of Autumn Creek and Fawn Ridge you are a Beaver Creek Township resident and you can vote for Township Trustee and Township Fiscal Officer. If the name appears on your ballot, you may vote for one person for each office. This November one position for Township Trustee and the position of Fiscal Officer will be on the ballot. Be an informed voter. Attend election forums. Meet the candidates. Research the issues. **Vote on November 3.**

CONSOLIDATION

To better provide a One Stop Resource Center for all Township functions, coordinate Township functions and improve oversight of Township business, the following Township Departments have been consolidated to 851 Orchard Lane: Finance; Human Resources; Fire; Township Administrator; and Zoning. The new mailing address for all Township mail is 851 Orchard Lane, Beaver Creek 45434. The Beaver Creek Township Park Board address is now 1981 Dayton-Xenia Road, Beaver Creek, 45434.

ZONING

The number of permits for new homes in Beaver Creek Township for 2015 is 123 percent greater than 2014. The Zoning Department is busy reviewing zoning submissions and revising sections of the Zoning Resolution. Beaver Creek Township is the place to live and send your children to school.

TOWNSHIP MEETINGS:

View your Township meetings. Visit the www.BevercreekTownship.org Web site and follow the link to YouTube for the videos of meetings starting with May 12, 2014. All Township meetings are held at Beaver Creek Township Fire Station 61 Training Room, lower level. The Beaver Creek Township Board of Trustees will conduct Regular Meetings for 2015 every other Monday at 1:00 p.m. If Monday is a Federal Holiday the meeting is held the next day – Tuesday.

Check www.bevercreektownship.org for a list of address of all Township offices and facilities and for a calendar of meetings, permit forms, minutes of meetings, job descriptions, and more. The Beaver Creek Township Board of Trustees, the Beaver Creek Township Zoning Commission and the Beaver Creek Township Board of Zoning Appeals welcome interested people to be present at each of these meetings.

Township Receives Clean Audit

The Beaver Creek Township Fiscal Office has been recognized by the Ohio State Auditor's Office for its most recent audit, as having "the most desirable audit opinion." The opinion was an unqualified or clean opinion, meaning that the audit revealed no reportable conditions or material weakness in the Township's internal control structure, no notable instance of noncompliance with state laws, and the financial statements were free of material misstatements and did not contain any recommendations of findings.

This is the third consecutive bi-annual audit in which the Township has received the most desirable audit opinion. This record illustrates the Township's achievement of our goal of fiscal responsibility, accountability and transparency to the taxpayers of Beaver Creek Township. These opinions, by independent auditors, confirms the Township's dedication to internal controls and accurate accounting in conformity with auditing standards applicable to financial audits contained in the comptroller general of United States' Government auditing standards.

By law, the Township is required to undergo an audit on a bi-annual basis. This includes an audit of financial statements, internal control structure and compliance with State Laws and Regulations. These audits are required to be conducted by the Ohio State Auditor or firms approved by the Auditor and are conducted in accordance with auditing standards applicable to financial audits contained in the comptroller general of United States' Government auditing standards.

City and Township Partner on Fuel Island

City Council and Beaver Creek Township Trustees met this summer during a joint work session to discuss past successes and identify future shared services. Staff from both entities presented a possible partnership as it relates to purchasing gas and diesel. The City operates a fuel island to supply fuel to City vehicles and equipment.

The Township agreed to purchase fuel from the City and help defray some of the operating costs and the Township will be able to purchase fuel at a lower price and have access to a dependable fuel supply during natural and manmade disasters.

The Beaver Creek Senior Center

The Beaver Creek Senior Center celebrated their 10 year anniversary in June and is gearing up for a busy fall and winter. The Center, which is open to those 55 years young and up, is looking to expand their doors in 2016 as well. Memberships are available for only \$35 for residents and \$55 for those outside the City or Township. The Center currently has over 1,400 members and is a very active place with health & fitness programs, billiards, corn hole, art class, gardening class, card games, dominos, Zumba, yoga, Mah Jong, lunches, bingo, line dancing and more.

Upcoming Special Events:

Halloween Party.....	October 29
Thanksgiving Luncheon.....	November 19
Christmas Luncheon.....	December 22

Veteran Program.....	November 6
La Comedia Trips.....	Dec. 4, Jan. 28
New Year's Party	December 31

The Center also offers a transportation program for all City and Township senior residents. The transportation program operates solely with volunteers. If you have the time, why not volunteer in transportation and experience the warm feeling you get when you are helping others.

You may stop by anytime to visit the Center, get a tour and pick up additional information. The Center is located inside The Charles and Anna Mae Lofino Adult Enrichment and Cultural Arts Center, 3868 Dayton Xenia Road.

Location:	C. I. Beaver Hall
Description:	Children 5th – 8th grade
Registration:	Register at https://apm.activecommunities.com/beavercreek or call 937-427-5514.

Taking Care of What We Have

2015 has been a great year in the Parks Department. Thanks to the successful levy passage in November 2014, we have been able to complete a variety of projects.

Alpha Mill – We have worked with Beavercreek Church of the Nazarene and the Alpha community to spruce up the museum. The in-ground scale has been filled in and cemented over so it is more safe to walk on. The outside of the building has been given a fresh coat of paint, one of the inside walls have been shorn up to be sturdier and a new roof is in place.

CI Beaver Park – There is a new playground in the park which complements the rental facility. The playground was installed in June with the help of Beavercreek Church of the Nazarene. Our parks staff is still working on improving the grounds around the playground area. New drainage was installed to keep the area drier; the hillside will be seeded and the wooded area surrounding the park will be cut back for a more scenic appearance.

Dominick Lofino Park – A new centerpiece is now place in the skate park along with concrete benches and flat rails. The old piece that was the center of attention was made of wood has rotted over the years and deemed unsafe. Two tennis courts will be re-surfaced this fall. The courts have become unsafe to play on with the cracks continuing to expand. Pickle ball lines will be painted along with the tennis court boundaries to offer a new and exciting game for our community to play.

Lofino Center Expansion Study – After numerous surveys, focus groups and a public forum, the study was wrapped up in August. The study showed a need for more programming and meeting space. There is also additional need for the expansion of our fitness center for the seniors. This fall, the City will bid-out the architectural design for the Center and we hope to begin renovations in 2016.

Virgallito Park – Along with a grant from Nature Works (Ohio Department of Natural Resources), a poured-in-place playground surface will be installed this fall. This will allow children with gait issues and those who utilize walkers or wheelchairs to have full access to the playground.

As we look into 2016, our big project will be to replace the playground equipment at Shoup Park on Meadowbridge Drive. This playground is over 22 years old. The mound slide will not go away, but we will install all new slides, swings and play equipment.

Working Together

The City and Township are exploring the opportunity to work together to better provide park services. This collaboration was a goal of our joint master plan. It would consolidate park maintenance and administration of three government agencies (City, Township and Township Park District) handling parks into one agency.

The joint effort will improve the level of service by giving residents one phone number to call for shelter reservations; City park staff will maintain park land, instead of two entities coming into the same area and cutting grass. We hope this will be more user-friendly for our community.
